

Nexora Consulting Template

Setup Guide

Version 1.0

Thank you for purchasing the Nexora Consulting Website Template.

This template was built using pure HTML, CSS, and JavaScript with no frameworks or build tools required. Simply edit the files, update your business information, and deploy your website.

1. Introduction

Nexora Consulting is a responsive business website template designed for:

- Consulting Firms
- Technology Companies
- Marketing Agencies
- Business Coaches
- Service-Based Businesses
- Freelancers

Included Files:

- index.html
- style.css
- script.js

Features:

- Fully Responsive Layout
 - Dark / Light Theme Toggle
 - Animated Scroll Reveals
 - Mobile Navigation Menu
 - Contact Form Integration
 - Modern Business Design
 - Fast Loading
 - No Dependencies Required
-

2. Changing Company Name

The company name appears throughout the website.

Search for:

Nexora Consulting

Examples include:

Navbar Logo

```
<span class="logo-main">Nexora</span>  
<span class="logo-accent">Consulting</span>
```

Hero Section

```
<h1 class="hero-title">  
Nexora Consulting  
</h1>
```

Footer

```
<h3 class="footer-logo">  
Nexora Consulting  
</h3>
```

Replace all instances with your company name.

Example:

```
<span class="logo-main">Atlas</span>  
<span class="logo-accent">Advisors</span>
```

3. Updating Colors

All primary colors are stored at the top of style.css.

Locate:

```
:root {
```

Main accent colors:

```
--accent: var(--cyan-accent);  
--accent-secondary: var(--teal-accent);
```

Current palette:

```
--imperial-blue  
--french-blue  
--steel-azure  
--cyan-accent  
--teal-accent
```

Example Brand Color Change:

```
--cyan-accent: #7c3aed;  
--teal-accent: #9333ea;
```

This will update buttons, links, highlights, and accent elements throughout the website.

4. Replacing Contact Information

Locate the Contact section in index.html.

Update:

Email

```
hello@yourbusiness.com
```

Phone Number

```
+1 (813) 555-1234
```

Availability

Monday – Friday • 9AM – 6PM

Footer Contact Information

nexoraconsulting@nexoraconsulting.com

Replace these values with your own business information.

5. Connecting Formspree

The template includes Formspree integration by default.

Current Example:

```
<form  
action="https://formspree.io/f/your-endpoint"  
method="POST">
```

Setup Steps:

1. Create a Formspree account
2. Create a new form
3. Copy your endpoint URL
4. Replace the existing endpoint in index.html

Example:

```
action="https://formspree.io/f/abcxyz123"
```

The included JavaScript automatically handles:

- Form Submission
- Loading State
- Success Message
- Error Message

No backend required.

6. Deploying To Netlify

Method 1: Drag & Drop

1. Create a Netlify account
2. Click "Add New Site"
3. Choose "Deploy Manually"
4. Drag your project folder onto Netlify

Your website will be live instantly.

Method 2: GitHub

1. Upload project to GitHub
2. Connect GitHub to Netlify
3. Select repository
4. Deploy

Build Settings:

Not Required

This project uses plain HTML, CSS, and JavaScript.

7. Deploying To Vercel

1. Create a Vercel account
2. Import Project
3. Connect GitHub repository
4. Deploy

Framework Preset:

Other

Build Command:

None

Output Directory:

Leave Blank

Since the project uses static files only, deployment takes only a few seconds.

8. Editing Services

Locate:

```
<section class="services">
```

Example Service Card:

```
<div class="card">
  <h3>Cloud Operations</h3>
  <p>
    Secure cloud infrastructure environments...
  </p>
</div>
```

Replace:

- Service Title
- Service Description

Add or remove cards as needed.

Recommended:

4–8 service cards for best visual balance.

9. Editing Testimonials & Results

Locate:

```
<section class="results">
```

Example:

```
<h4>
Financial Operations Firm
</h4>

<span>
```

```
Cloud Systems Modernization
</span>
```

Replace with:

- Client Name
- Industry
- Project Outcome

Example:

```
<h4>
Atlas Legal Group
</h4>

<span>
Workflow Automation
</span>
```

Tip:

Specific results often improve credibility.

Example:

"Reduced onboarding time by 32%"

instead of

"Improved efficiency."

10. Frequently Asked Questions

Q: Do I need coding experience?

A: Basic HTML editing knowledge is recommended, but most content can be updated by replacing text.

Q: Do I need a backend server?

A: No. Formspree can handle form submissions without a backend.

Q: Can I use this template for client projects?

A: Yes.

Q: Can I modify the design?

A: Absolutely. Colors, typography, sections, and content can all be customized.

Q: Does this work on mobile devices?

A: Yes. The template is fully responsive.

Q: Can I host this anywhere?

A: Yes. Netlify, Vercel, GitHub Pages, traditional hosting providers, and most web servers are supported.

Thank You

Thank you for purchasing the Nexora Consulting Template.

We hope it helps you launch your next business website quickly and professionally.
